HOMOLOGATION NUMBER (IF APPLICABLE)

PURPOSE OF THE REQUEST

Following Robert Kubica (driver of our car #41) rally accident in February 2011 in which his right forearm was partially severed, we noticed in last week Barcelona Good Year test that it is impossible for him to correctly fasten enough his harness by himself in a LMP2 car due to arm and hand limitations. He needs assistance.

Art 12.2.2 Pit stop procedure

Question:

For safety reasons, could the ELMS Committee allow us a 4th person in the working area who's ONLY function would be to assist Robert Kubica going in and out of the #41 LMP2 car? Thank you in advance for your understanding.
