

EUROPEAN LE MANS SERIES COMMITTEE

TO: Teams

CATEGORY: LMP2 LMP2 Pro/Am LMP3 LMGTE

DECISION N°: ELMS_2023_D002_All_Fuel_pump_procedure

DATE: 01/02/2023

FROM: The European Le Mans Series Committee

SUBJECT: Fuel pump procedure during Scrutineering

APPLICABLE REGULATION

2023 European Le Mans Series Sporting Regulations

DECISION

Fuel pump procedure during Scrutineering:

Safety:

All fuel manipulations should be done respecting the regulations (extinguisher, overall, balaclava, goggles, gloves, shoes, underwear)

Fuel sample:

If a fuel sample is required, it should be done by collecting fuel directly by using the fuel line going out of the chassis.

Procedure:

All teams will be allowed to pump-out fuel using their own fuel bowser inside the "Parc Fermé" under the supervision of a technical scrutineer.

At the end of the procedure, it will be required to fit a transparent line on the fuel line going from the chassis to the engine and activate all car fuel pumps. During this procedure, the team will be required to display the supply current of all the fuel pumps.
